**Human Ingenuity:**
Your Project may focus on solving problems and how examining how things have been created. Also what are the positive and negative impacts of these creations?

**Health & Social education:**
Your Project may focus on caring for yourself, physically or mentally and enabling you to make good choices for keep healthy and happy.

**Community and Service:**
Your Project is focussed on your community either locally or beyond. Is it providing a worthwhile service for others or helping you to become a more responsible citizen?

**Environments:**
Natural, virtual and man made environments. Your Project may look at local and global issues. It may focus on what is your role both now and in the future.

Gary Green, PLC, Perth, 2011.
